Chimp Haven Inc.
13600 Chimpanzee Place
Keithville, LA 71047

Customer ID: **28658**
Certificate: **72-C-0163**
Site: **001**
CHIMP HAVEN, INC.

Type: **ROUTINE INSPECTION**
Date: **Sep-17-2013**

---

**3.75 (c) (2)**

**HOUSING FACILITIES, GENERAL.**

(2) Maintenance and replacement of surfaces. All surfaces must be maintained on a regular basis. The cement surface at the entrance to the transfer chute in Habitat 2 bedroom area is eroded. The surface is pitted which makes sanitation difficult. All surfaces must be repaired or replaced when worn to maintain sanitation. **CORRECT BY: 10/20/13**

---

**3.75 (c) (3)**

**HOUSING FACILITIES, GENERAL.**

(3) Cleaning. Hard surfaces with which nonhuman primates come in contact must be spot-cleaned daily and sanitized in accordance with Sec. 3.84 of this subpart to prevent accumulation of excreta or disease hazards. The plastic weather stripping on the 2 doors to the indoor housing area of Habitat 3 are coated with a brown material. Accumulation of debris and body oils on solid surfaces pose a disease hazard for the non human primates. The weather stripping must be cleaned as often as necessary to maintain husbandry practices. **CORRECT BY: 10/1/13**

---

**3.75 (e)**

**HOUSING FACILITIES, GENERAL.**

(e) Storage. Supplies of food and bedding must be stored in a manner that protects the supplies from spoilage, contamination, and vermin infestation. Food Storage Building: The bottom shelf of the small refrigerator is dirty and there is spilled feed on the floor of the walk in cooler. Mops and brooms are next to the food prep table. Containers of food are mixed on shelves with non food items. Empty storage containers are present in the food prep/food storage area. Dirty refrigerators and spilled food on floors are an attractant for pests. Mixing cleaning items and storage items with food supplies may contaminate the food and makes cleaning the area difficult. The food supply building and refrigerators/coolers must be kept clean with all equipment stored away from food storage/prep areas to prevent contamination of food supplies. **CORRECT BY: 10/1/13**

The inspection and exit briefing was conducted with facility employee.
No non-compliant items identified during this inspection.

Exit interview conducted with the attending veterinarian, animal care supervisor, and the president/Chief Executive officer.

NARRATIVE

2.40 (b) (2) Attending veterinarian and Adequate veterinary care (dealers and exhibitors)

Several medications at the facility which are being given to the chimps are extra label medications. Extra label medications are not prescribed for the species they are being given to. Without the approval of the attending veterinarian these medications are not considered appropriate veterinary care for the animals at the facility. The attending veterinarian needs to review these drugs and approve there use as intended on the label for the animals at the facility.
